

Digital Documents On-Demand

No IT Costs, No Capital Spend,
No Hassle.

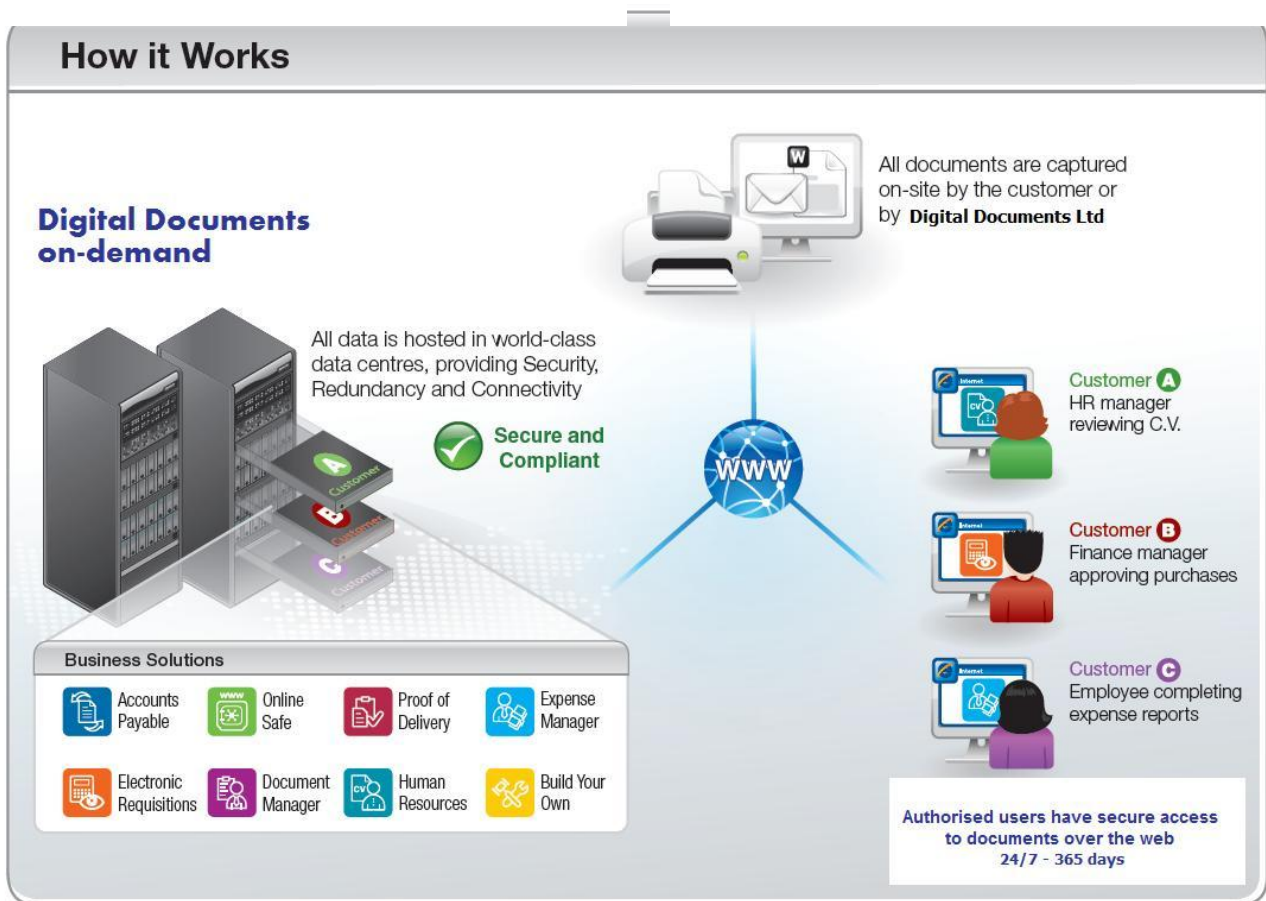

"Smart Business Solutions"

Simplify your business processes and cut costs

Digital Documents on-demand is a fully hosted service that automates everyday cumbersome business processes such as Expenses, Procurement and Human Resources. Removing costs and simplifying processes.

Easy to use and simple to set up, Digital Documents on-demand removes the necessity for IT personnel, hardware, maintenance costs or upgrades. With Digital Documents on-demand there is no capital spend and no IT costs. Just a simple fixed monthly fee and no hassle.

Digital Documents on-demand is built on the proven Softco R8 technology platform, which is installed in some of the world's largest organisations delivering proven, scalable, compliant access to billions of paper and electronic documents for thousands of users. Digital Documents on-demand incorporates a number of ready to go Software-as-a-Service (SaaS) applications, as well as the option to build your own tailored solution to meet your specific business needs.

"The annual cost to own and manage software applications can be up to four times the cost of the initial purchase. As a result, companies end up spending more than 75% of their total IT budget just on maintaining and running existing systems and software infrastructure."

On receipt of supplier invoices, traditional paper-based processes are time-consuming and labour-intensive, making them more prone to error and delay. Bottlenecks in the system can lead to lost invoices, late payment penalties and a flood of supplier queries. With Smart AP, documents are scanned upon receipt and entered into an automated workflow for approval. Invoices are dispatched to the appropriate business units where authorised personnel receive alerts that prompt them to sign off the document in a timely manner.

Smart AP is streamlined to dramatically reduce invoice processing times, while providing real-time visibility of where each invoice is in the payment cycle.

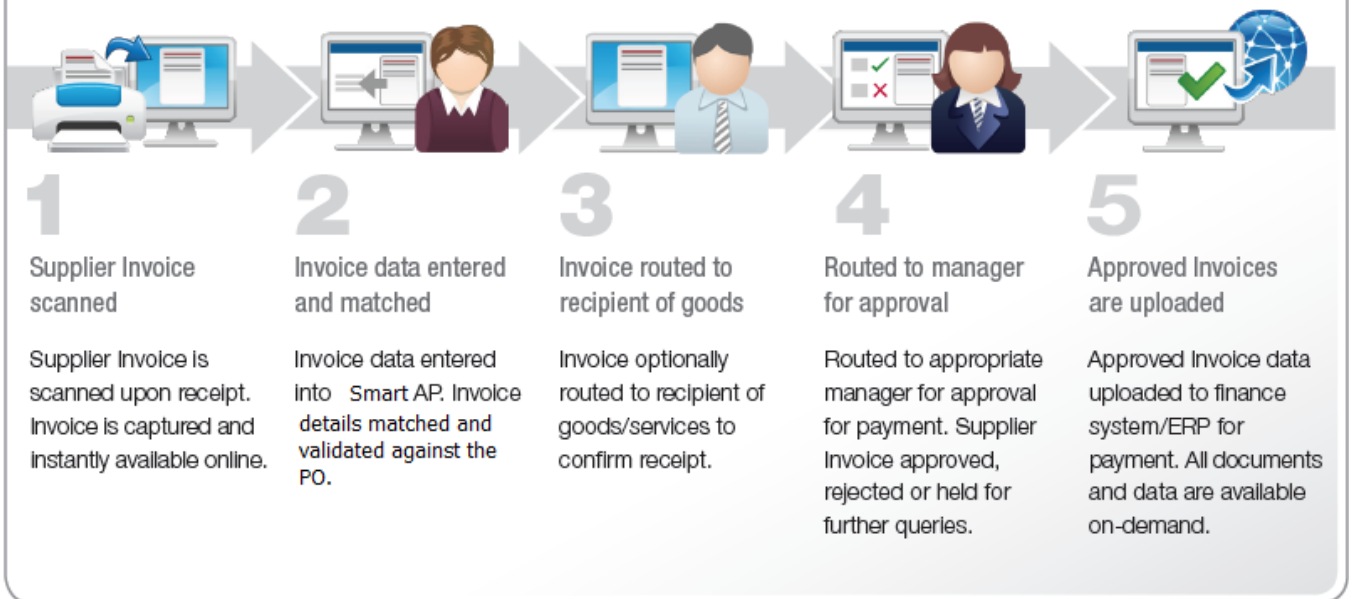

Key Benefits

- Cut processing costs
- Reduce supplier queries
- Increase management control and visibility
